Dear Dat

Congratulations! The University Admissions Selection Committee has approved your application to the Nanyang Technological University (NTU) to read **COMPUTER SCIENCE** in Academic Year **2018-19**, which commences on **27 July 2018**.

We are confident that our rigorous academic programme will equip you with professional skills that will give you an edge in field you choose to pursue upon graduation. Our vibrant on-campus living with diverse sporting and cultural activities will provide you with a truly enriching educational experience.

This offer of admission is conditional upon your agreement to fulfil the following terms, failing which the University will de-register you from the course of study offered:

- a. The University is satisfied that your physical and mental health are good and that you are free from any disease, illness and/or any other medical condition and, certified fit to study by the examining doctor at our University Health Centre. The health screening must be completed by **27 July 2018**;
- b. You will apply and successfully secure a Student's Pass from the Immigration and Checkpoints Authority of Singapore. NTU will assist in and support your application for the Student's Pass.

Please accept our offer under 'Application Outcome' at http://bit.ly/fore_NTUCheckStatus by **29 March 2018**. If you do not accept the offer by the said date, it shall lapse.

As you are offered under the *subsidised tuition fee* scheme, you are eligible to apply for Tuition Grant (subject to approval from our Ministry of Education, and after which you are required to sign the Tuition Grant Agreement and agree to complete a 3 year service obligation upon graduation), the Tuition Fee Loan and other financial assistance schemes. Instructions on enrolment procedures which include health screening schedule at our University Health Centre, matriculation, application for loans, accommodation on campus, Student's Pass application, etc, will be available at the acceptance link after you have accepted the offer at <http://bit.ly/NTUAcceptance>. A summary of the admission procedures is also available at http://bit.ly/NTUEnrolment_IS. Should you have any enquiries, please contact us at adm_intnl@ntu.edu.sg.

Do note that any candidate found to have given inaccurate or false information or to have deliberately omitted material information related to the application for admission will be expelled from the University.

Once again I extend to you my heartiest congratulations and look forward to your participation in a challenging and stimulating academic grooming at NTU.

Yours sincerely

Alan Phua
Director of Admissions
Student and Academic Services Department

The admission offer e-letter is an official document that contains NTU's digital signature and can be instantly validated. The official e-letter is a certified PDF that displays a blue ribbon on the notification bar across the top of Adobe Reader, ensuring the recipient that the digital signature is authentic and the contents of the admissions outcome e-letters have not been altered.

How to validate the authenticity of the admission offer e-letter?

Valid Signature

When the blue ribbon indicates that the document is valid, NTU's digital signature is true and authentic and the document's contents have not been changed or altered in any way.

Certified by Office of Admissions and Financial Aid <d-oafa@ntu.edu.sg>, Nanyang Technological University, certificate issued by GlobalSign SHA256 CA for Adobe.

Invalid Signature

If the blue ribbon indicates that the document is invalid, then the document should be rejected. The invalid status could be due to several reasons, such as an inauthentic digital signature or an alteration to the document. In all cases, reject a document that is invalid.

Certification by Office of Admissions and Financial Aid <d-oafa@ntu.edu.sg> is invalid.

Author Unknown

If there is a properly working internet connection and the digital signature cannot be validated, the document should be rejected.

The validity of the document certification is UNKNOWN. The author could not be verified.
